

El Mirage Road Northern Avenue to Bell Road

Design Concept Report and Environmental Assessment

MCDOT Project Number TT167

We Need Your Input

Public Open House Forum

The City of El Mirage, the City of Surprise, Maricopa Association of Governments (MAG) and the Maricopa County Department of Transportation (MCDOT) are jointly conducting a Design Concept Report evaluating proposed improvements to El Mirage Road (Northern Avenue to Bell Road). As part of this study, an Environmental Assessment (EA) is being conducted of the roadway segments between Northern Avenue and Cactus Road and between Paradise Lane and Bell Road.

You are invited to learn more and participate in an informational open house public meeting being held to gather comments and input regarding findings and recommendations for proposed roadway widening and other improvements. This meeting is the final in a two-set series of public input meetings being conducted in the course of the Design Concept Report, Environmental Assessment and Preliminary Design stages. Your input during this phase is an integral part of the design concept and environmental processes.

The current Design Concept Report phase of project development provides a more in-depth analysis and evaluation of the recommendations identified in the 2006 El Mirage Road Corridor Improvement Study which incorporated roadway safety, area transportation needs and future traffic demand. The final Design Concept Report will serve to identify interim and long-term improvements, the ultimate roadway type, alignment, number of travel lanes and additional public right-of-way requirements.

During this meeting, project team members will be on hand to discuss the project objectives, present conceptual roadway alternatives and answer questions. Stop by anytime between 5:00 and 7:00 p.m. to speak with MCDOT, El Mirage or Surprise project team members.
